ANDORRA, SPANISH ADMIN.

an-ˈdor-ə

LOCATION — On the southern slope of the Pyrenees Mountains between France and Spain.
GOVT. — Co-principality
AREA — 179 sq. mi.
POP. — 72,766 (July 1, 1996)
CAPITAL — Andorra la Vella

Andorra is subject to the joint control of France and the Spanish Bishop of Urgel and pays annual tribute to both.

100 Centimos = 1 Peseta
100 Centimes = 1 Franc
100 Cents = 1 Euro (2002)

Catalogue values for unused stamps in the Spanish Administration for this country are for Never Hinged items, beginning with Scott 50 in the regular postage section and Scott C2 in the airpost section; for the French Administration of this country, Never Hinged items begin at Scott 78 for regular postage, Scott B1 for the semi-postal section, Scott C1 for the airpost section, and Scott J21 for the postage due section.

A majority of the Spanish Andorra stamps issued to about 1950 are poorly centered. The very fine examples that are valued will be somewhat off center. Very poorly centered examples (perfs cutting design) sell for less. Well centered stamps are scarce and sell for approximately twice the values shown (#1-24, E1-E3), or 50% more (#25-49, E4-E5).

The cliche of 40r in plate of 20r error, was discovered before the stamps were issued. All copies were defaced by a blue pencil mark. Value, $750.00.

In perf. 12½, Nos. 1-4, 4a and 6, as well as 7a, were printed in 1870 on thicker paper and 1875 on normal paper. Stamps of the earlier printing sell for 2 to 5 times more than those of the 1875 printing.

Some reprints of the 1870-85 issues are on a smooth white chalky paper, ungummed and perf. 13½.

Other reprints of these issues are on thin ivory paper with shiny white gum and clear-cut perf. 13½.

ANTIGUA

LOCATION — In the West Indies, southeast of Puerto Rico
GOVT. — Independent state
AREA — 171 sq. mi.
POP. — 64,246 (est. 1999)
CAPITAL — St. John's

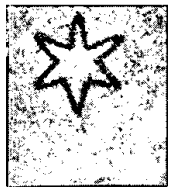
Antigua was one of the presidencies of the former Leeward Islands colony until becoming a Crown Colony in 1956. It became an Associated State of the United Kingdom in 1967 and an independent nation on November 1, 1981, taking the name of Antigua and Barbuda.

Antigua stamps were discontinued in 1890 and resumed in 1903. In the interim, stamps of Leeward Islands were used. Between 1903-1956, stamps of Antigua and Leeward Islands were used concurrently.

12 Pence = 1 Shilling
20 Shillings = 1 Pound
100 Cents = 1 Dollar (1951)

Catalogue values for unused stamps in this country are for Never Hinged items, beginning with Scott 96.

Watermark



Wmk. 5 — Star

Values for unused stamps are for examples with original gum as defined in the catalogue introduction. Any exceptions will be noted. Very fine examples of Nos. 1-8, 11, 18-20 will have perforations touching at least one frameline due to the narrow spacing of the stamps on the plates. Stamps with perfs clear of the framelines on all four sides are extremely scarce and will command higher prices.

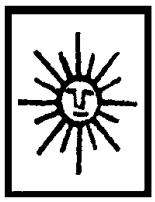
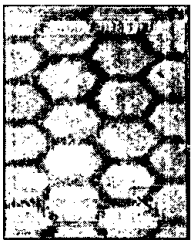
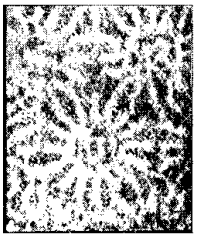
Wmk. 85 — Small Sun, 4½mm



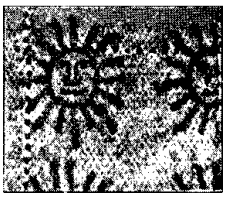
Wmk. 86 — Large Sun, 6mm



Wmk. 87 — Honeycomb

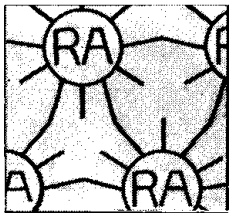


Wmk. 88 — Multiple Suns



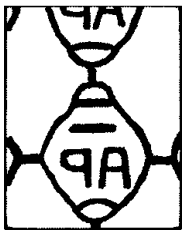
Wmk. 89 — Large Sun

In this watermark the face of the sun is 7mm in diameter, the rays are heavier than in the large sun watermark of 1896-1911 and the watermarks are placed close together, so that parts of several frequently appear on one stamp. This paper was intended to be used for fiscal stamps and is usually referred to as "fiscal sun paper."



Wmk. 90 — RA in Sun

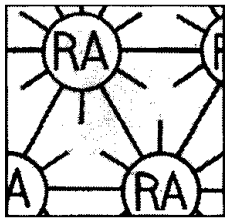
In 1928 watermark 90 was slightly modified, making the diameter of the Sun 9mm instead of 10mm. Several types of this watermark exist.



Wmk. 205 — AP in Oval

The letters "AP" are the initials of "AHORRO POSTAL." This paper was formerly used exclusively for Postal Savings stamps.

Wmk. 287 — Double Circle and Letters in Sheet



Wmk. 288 — RA in Sun with Straight Rays

Wmk. 365 — Argentine Arms, "Casa de Moneda de la Nacion" & "RA" Multiple

Q3	PP2	11p brown & black		*22.00*	*22.00*
	Nos. Q1-Q3 (3)			*36.75*	*36.75*

Nos. Q1-Q3 were sold only at Unidas Postal outlets. No. Q3 is inscribed "Caja Envio 2."

Stamps of Type PP2 lacking "U.P." in denominations of 7p, 11p, 16p, and 23p were issued in 1999, but were applied by postal workers to packages brought to post offices by customers with large mailings (Grandes Clientes). These stamps were not to be given to any customers purchasing them.

The same sale and use restrictions applied to three other non-denominated stamps for use by "Grandes Clientes," which are inscribed "Caja Normalizada," have blue, brown violet and ocher frames, and were issued in 1995.

Nos. Q2 and Q3, though inscribed "Grandes Clientes," apparently were available for purchase by any customers, at Unidas Postal outlets.

BUENOS AIRES

The central point of the Argentine struggle for independence. At intervals Buenos Aires maintained an independent government but after 1862 became a province of the Argentine Republic.

8 Reales = 1 Peso

Values of Buenos Aires Nos. 1-8 vary according to condition. Quotations are for fine copies. Very fine to superb specimens sell at much higher prices, and inferior or poor copies sell at reduced values, depending on the condition of the individual specimen.

Nos. 1-8 are normally found without gum, and the values below are for such items. Examples with original gum sell for higher prices.

Both fine and blurred impressions of these stamps may be found. They have generally been called Paris and Local prints, respectively, but the opinion now obtains that the differences are due to the impression and that they do not represent separate issues. Values are for fine impressions, unless otherwise noted. Rough or blurred impressions sell for less.

Many shades exist of Nos. 1-11.

Values are for fine impressions. Rough or blurred impressions sell for less.

From Jan. 1 to Feb. 24, 1864, No. 4 was used as a 5 centavos stamp but copies so used can only be distinguished when they bear dated cancellations.

The reprints show numerous spots and small defects which are not found on the originals. They are printed on gray blue, dull blue, gray green, dull orange and light magenta papers.

Values for unused stamps are for examples with original gum as defined in the catalogue introduction except for Nos. 1-20 which are rarely found with gum and are valued without gum. Very fine examples of Nos. 35-100, F3-F5, J1-J10 and O1-O40 will have perforations touching the framelines or design on one or more sides due to the narrow spacing of the stamps on the plates and imperfect perforation methods. Stamps with perfs clear of the design on all four sides are scarce and will command higher prices.

The official stamps became obsolete on Dec. 31, 1894. In Aug., 1895, sets of 32 varieties of "O.S." stamps, together with some envelopes and postal cards, were placed on sale at the Sydney post office at £2 per set.

These sets contained most of the varieties listed above and a few which are not known in the original issues. An obliteration consisting of the letters G.P.O. or N.S.W. in three concentric ovals was lightly applied to the center of each block of four stamps.

It is understood that the earlier stamps and many of the overprints were reprinted to make up these sets.

LOCATION — Northeastern part of Australia
GOVT. — British Crown Colony
AREA — 670,500 sq. mi.
POP. — 498,129 (1901)
CAPITAL — Brisbane

Originally a part of New South Wales, Queensland was constituted a separate colony in 1859. It was one of the six British Colonies that united in 1901 to form the Commonwealth of Australia.

12 Pence = 1 Shilling
20 Shillings = 1 Pound

Values for unused stamps are for examples with original gum as defined in the catalogue introduction. Very fine examples of Nos. 4-73, 84-125, 128-140, and F1-F3b will have perforations touching the design on at least one or more sides due to the narrow spacing of the stamps on the plates. Stamps with perfs clear of the design on all four sides are scarce and will command higher prices.

Values for unused stamps are for examples with original gum as defined in the catalogue introduction.

Very fine examples of Nos. 10-60 and O1-O60 will have perforations slightly cutting into the framelines or design on one or more sides due to the narrow spacing of the stamps on the plates.

Stamps with perfs clear on all sides are scarce to rare and will command higher to substantially higher prices.

Values for unused stamps are for examples with original gum as defined in the catalogue introduction except for Nos. 1-2a and 10 which are valued without gum as few examples exist with any remaining original gum. Very fine examples of Nos. 17-75a will have perforations touching the design on one or more sides due to the narrow spacing of the stamps on the plates. Stamps with perfs clear of the design on all four sides are scarce and command higher prices.

The redrawn 2p measures 33½x25mm instead of 32½x24½mm. There are many slight changes in the clouds and other parts of the design.

The 4p is much lighter, especially the waterfall and trees above it. This appears to be a new or cleaned plate rather than a redrawn one.

In the redrawn 6p there are more colored lines in the waterfall and the river and more white dots in the trees.

All values of the 1864-67 series except the 3p and 8p are known on unwatermarked paper. They are probably varieties from watermarked sheets which have been so placed on the printing press that some of the stamps escaped the watermark.

One copy of the 2p gray lilac, design A10, is reported to exist with only "PENCE" of watermark 80 showing. Some believe this is part of the "SIX PENCE" watermark.

POSTAL FISCAL STAMPS

On Jan. 1, 1884, all postage and fiscal stamps were made available for either purpose. Fiscal stamps became invalid after June 30, 1901.

Used values are for examples with postal cancellations used from Jan. 1, 1884 through June 30, 1901.

Beware of copies with a pen cancellation removed, often regummed or with a fake postmark added.

Stamps inscribed "Stamp Duty" that were issued primarily in postal rates in the normal postage stamp size are listed in the postage section (Nos. 146-178, 180-183, 192-192A). The stamps meeting primarily fiscal rates and in the larger fiscal stamp size, are listed here in the Postal-Fiscal section.

LOCATION — Central Europe
GOVT. — Republic
AREA — 32,378 sq. mi.
POP. — 8,139,299 (1999 est.)
CAPITAL — Vienna

Before 1867 Austria was an absolute monarchy, which included Hungary and Lombardy-Venetia. In 1867 the Austro-Hungarian Monarchy was established, with Austria and Hungary as equal partners. After World War I, in 1918, the different nationalities established their own states and only the German-speaking parts remained, forming a republic under the name "Deutschosterreich" (German Austria), which name was shortly again changed to "Austria." In 1938 German forces occupied Austria, which became part of the German Reich. After the liberation by Allied troops in 1945, an independent republic was re-established.

Wmk. 140 — Crown

Issues of the Austrian Monarchy (including Hungary)

Coat of Arms — A1

NINE KREUZER

Type I. One heavy line around coat of arms center. On the 9kr the top of "9" is about on a level with "Kreuzer" and not near the top of the label. Each cliche has the "9" in a different position.

Type IA. As type I, but with 1¼mm between "9" and "K."

Type II. One heavy line around coat of arms center. On the 9kr the top of "9" is much higher than the top of the word "Kreuzer" and nearly touches the top of the label.

Type III. As type II, but with two, thinner, lines around the center.

Wmk. K.K.H.M. in Sheet or Unwmk.

1850 Typo. *Imperf.*

The stamps of this issue were at first printed on a rough hand-made paper, varying in thickness and having a watermark in script letters K.K.H.M., the initials of Kaiserlich Königliches Handels-Ministerium (Imperial and Royal Ministry of Commerce), vertically in the gutter between the panes. Parts of these letters show on margin stamps in the sheet. From 1854 a thick, smooth machine-made paper without watermark was used.

Type II. The ornament is prolonged within the curve and has two points at bottom. The corresponding ornament at top of the lower left corner does not touch the curve (1872).

Type III. Similar to type II but the top ornament is joined to the curve (1881). Two different printing methods were used for the 1867-74 issues. The first produced stamps on which the hair and whiskers were coarse and thick, from the second they were fine and clear.
